Email 2, Logic: Does this make any sense to you?

It's not your fault...

Why you can't [get a benefit]...

The surprising reason you're still [getting a bad result]...

Now it all makes sense...

Hi [Name],

If you look around, you'll see a lot of [types of people in the niche, e.g., "dieters" or "online marketers"] who are trying to [get some specific benefit].

But in almost every case, they're failing.

You know what I'm talking about, right? Maybe you can even relate...

You read everything you can get your hands on about how to [get a benefit]. You [do some other necessary step]. You even [do some other thing that's thought to be crucial to success].

But it just doesn't happen for you.

Sure, sometimes you [have a little success, e.g., "lose a few pounds"]. It's just enough to give you hope. But it doesn't last. And pretty soon you're frustrated because it seems like you just can't [get some good result].

Listen, it's not your fault.

Here's the problem...

[Describe some logical problem about why people don't get results and how it's not their fault. E.G., people can't lose weight because "cookie cutter" diets don't work – you need custom diets. Another example: people can't make money online if they don't have the proper tools.]

It's no wonder you can't [get some good result]!

Until now...

Because when you use [name of product] to [get some result], [describe logically how the product gets results by avoiding the common problem you just mentioned above].

End result? You [get some really good benefit/result].

Pretty simple, right? And very effective.

But you don't have to take my word for it. See for yourself at [link].

[sign off]

P.S. Stop [chasing some result using some outdated method]. If you want to see REAL results, then you need to [do something different]. And this is the [type of product] that makes it all possible.

Check it out for yourself at [link]

Email 3, Fear: It's a scary thought...

You probably don't even want to think about this...

Imagine [getting some undesired result]...

Don't let [bad thing] happen to you...

Warning: you're in danger of [having a bad thing happen]...

Hi [Name],

It's human nature to imagine a future that's better than what we're living today. We daydream about [getting some good results]. We think about [how we'll feel when we achieve some niche-relevant goal]. And all that daydreaming leaves us smiling and feeling good.

You know what happens when we're feeling good? We don't change what we're doing. We get into a rut. And we keep daydreaming about a future that's never going to happen.

That's a scary thought, isn't it?

Just imagine for a moment how you'd feel if you don't [get some result you'd been hoping for. E.g., "lose the weight" or "start making money online"].

It's pretty awful, right?

You'd [describe how the person might feel]. Other people would [say certain mean things behind your back, e.g., "Look at how fat she is!"]. And [describe some other way that the person would feel bad – you want them to feel some fear about their future if they don't take action].

Now here's the good news...

It doesn't have to be that way. Sure, if you keep doing what you're doing, then you're going to keep getting the same result. But if you make just one tiny change, then everything else will change too.

Make that one tiny change, and suddenly [you'll start getting some good result]. Make that one tiny change and [you'll get some other good benefit]. Make that change, and you'll finally [feel really good about getting some desired result].

What is that one tiny change?

It's this: [link to sales page].

Check it out – and say hello to a better future!

[sign off]

P.S. Did you know [state some scary relevant statistic -- e.g., "95% of businesses fail" or "610,000 people die of heart disease every year."]

Don't become a statistic. Don't [let some scary thing happen to you]. Take back control by [getting a good benefit].

Get started now at [link]...

Email 4, Proof: The results are in...

This really works! Here's the proof...
Seeing is believing!
Whoa – check out this [\[case study/proof\]](#)...
These numbers are incredible...

Hi [\[Name\]](#),

A lot of people are really excited about [\[name of product\]](#).

And no wonder...

It's quickly becoming the favorite way for [\[type of niche group members\]](#) everywhere to [\[get some result\]](#) and [\[get some other desired result\]](#).

Unless you've been hiding out on a deserted island with no internet connection, you've probably been hearing all these good things too. And it sounds almost too good to be true, doesn't it?

Here's the good news – [\[name of product\]](#) really works, and we've got the proof.

Check it out:

[\[Link to some rock solid proof, such as a detailed case study that supports your sales letter's claims.\]](#)

That's pretty amazing, right? And best of all, it's not an outlier. It's not an exception. There are people just like you from all over the world who are getting great results!

It just goes to show that what we've been saying is absolutely true: [\[insert some proven fact relating to how the product can get some benefit. Be specific here. E.G., mention how many pounds it's possible to lose with a diet, how much traffic one can get with a special tool, etc.\]](#)

[SIDE NOTE: Just be careful to not promise that the prospect will get those specific results. Read the [FTC.gov](https://www.ftc.gov/advertising) advertising guidelines for more information, or talk to an attorney about the right way to make claims.]

Now the good news is that you can use this same [\[tool, type of product, etc.\]](#) to start [\[getting some good results\]](#) too!

Check it out: [\[link\]](#) – you’ll be glad you did!

Quick, get [\[this special offer\]](#) before it's gone...

STOP: Open this now so you don't kick yourself later...

Hi [\[Name\]](#),

A lot of people are saying that [\[name of product\]](#) is one of the best [\[type of product, e.g. "dieting guides"\]](#) to come down the pike in a long time. And that's because [\[give a solid reason why it's a good product – e.g., list what sorts of results it can produce\]](#).

That's why it surprises me that you haven't jumped on this offer yet, [\[first name\]](#). When I look around, I see a whole lot of your fellow [\[types of people, e.g. "dieters"\]](#) raving about how [\[product name\]](#) [\[delivers some really great results\]](#).

I think you'd agree that this is a pretty hard deal to beat.

But there's a catch...

So if you've ever wanted to [\[get some good benefit\]](#) and [\[get some other good benefit\]](#), then now is your chance!

You're going to kick yourself if you let this great deal slip between your fingers. So get it now while you still can by clicking here:

P.S. We've never offered a deal like this, and I doubt we'll ever do it again. So get it now while the getting is good at [\[special offer link\]](#)...

Want [results]? See inside...

A surprising way to [get a benefit]...

Need [a benefit]? Get this...

Hi [Name],

Over the last [amount of time you've been in the niche, e.g., "10 years"], I've helped [number] clients and customers [to get some good result].

And you know what I've heard countless times over the years?

How absolutely frustrated people are when it comes to [getting some good results]. By the time they arrive on my virtual doorstep, they've already tried dozens of [ways to get some good result] – and every single one of those [products/strategies/ etc.] failed them.

Now I'm going to let you in on the secret that I tell my clients and customers: if you want to start getting good results, then you need to [take some specific, surprising action that may even run counter to what your prospects are typically told].

There's a chance that you're cocking your eyebrow right about now. After all, most of what you've read tells you [to do the opposite].

But here's the thing...

All those other strategies you've tried don't work. That's why you're reading this newsletter. Nothing else has worked before – so now maybe it's time to toss the old wisdom aside, and try something that actually works.

If you'd like to get your hands on the [the complete solution, e.g., the complete diet] so you can [start getting some really great results], then look no further than right here:

Here's why...

[Explain why the professional may tell people to do one thing, but then they personally do something else. For example, there are professionals out there who would be out of a job if all their customers and clients got good result].

The **“Conversion” Sequence**

How To Pitch Your Products
Without Turning Off Your List

**The Funnel

Set 8: The “Conversion” Sequence

[\[Back to table of contents\]](#)

Blasting your prospects with a steady diet of promotional emails probably won't produce the results you want. If you want to start converting more prospects to buyers, you need to use a conversion sequence like this one:

1. Presentation, which is where you present your prospects with some good information about how to solve a problem.
2. Problem, where you get prospects to self-identify and realize their problem is serious.
3. Persuasion, where you persuade prospects to use your product to solve their problem.
4. Proof, where you provide a case study to show your product really works as advertised.
5. Promo, where you make one last-ditch effort to get a sale by offering prospects a special deal.

Check it out...

Bet you've never heard about this [\[type of\]](#) trick before...

A surprisingly simple way [\[to get a result\]](#)...

How a [\[surprising thing\]](#) can [\[help you get a benefit\]](#)...

Hi [\[Name\]](#),

[\[Achieving some goal or getting some benefit\]](#) isn't always quite as easy as it looks on paper. If you've ever tried it, then you know it can be a little tricky, [\[and other bad things, like expensive or time consuming\]](#).

Until now...

Because once you know this clever little trick for [getting a benefit], then the whole process becomes [faster, easier, less stressful] than ever before!

Here it is...

[Explain some tip/strategy for completing a process and/or getting a benefit. This should be something instantly actionable – something that produces good results pretty fast. You want this information to really impress your prospect.]

Pretty amazing, right?

And the best part is that you can put this [tip/strategy/secret] to work for you immediately, starting today. Do that, and you too could start seeing some great results!

Do you ever struggle with this [type of] problem?

Who else is frustrated by this [type of] problem?

Plenty of people have this [type of] problem – and they don't even realize it...

Is your [object/personhood/etc.] at risk?

Hi [Name],

This is scary stuff...

There are a lot of people who [have some problem] and don't even realize they have it. In some cases they're aware of it, but they don't realize how serious it is.

But I tell you what... [just because some problem isn't impacting you in a major way today doesn't mean it won't become a serious problem tomorrow].

Point is, [nipping a small problem in the bud today will give immediate benefits and/or prevent major hassles and headaches in the future. For example, fixing your low conversion rate today will put more money in your pocket right away. Another example: fixing a poor weight-loss diet will prevent plateaus and keep your goals on track.]

So that brings us to the next point: Do YOU have this problem brewing?

To find out, answer the following questions:

[Insert list of five to ten questions that specifically help people self-identify with having a problem or having the potential to develop a problem. E.G., "Are you using only one or two traffic generation methods?" Or, "Do you suffer from mid-day fatigue?"]

If you answered "yes" to at least [minimum number] of the above questions, then you're at risk for [developing some problem].

The good news is that it IS possible to [put an end to this problem or prevent it]. Use these [number] tips as a good place to start:

- [Insert bulleted list of tips. E.G., "Install a good tracking tool so that you know what works."

Remember, This is an informational email that seeks to identify the problem and then give a few tips to prevent or reverse this problem – so this email should be useful yet incomplete.]

Hi [Name],

There's a common misconception floating around [niche] circles. And that misconception says that you need to spend a lot time and/or money if you want to [get some good result].

It makes sense. After all, we've all seen someone who spent [weeks/months/years] and [hundreds/thousands/tens of thousands] of dollars trying to [get a good result].

But here's the thing...

Just because some people spend a lot of time and money [trying to get a result] doesn't mean YOU have to. In fact, all you have to do is read on to discover a surprising way to quickly get the [type of results] you want... without spending a lot of your hard-earned cash. In fact, you can do it for as little as [some small dollar amount, maybe even free] in just [some small time frame, e.g., "three days"].

Here's how...

[Insert explanation for fast and cost-effective way to get some good result.]

Pretty simple, right?

Heads up: the reason why so many others spend entirely way too much time and money [trying to complete a process or task] is because [explain what they're doing wrong]. But you can avoid this by [explain how to avoid this costly mistake].

Now the second reason people end up wasting time and money is because [explain another reason... e.g., “they don’t have any support” or “they don’t have the right tools to get the job done right the first time”].

Whatever it is, it probably would probably be a pretty significant [result], especially compared to [your current results]... right?
